In the first half of 2018, with further deepened reform of China's medical and health system, the Group fine-tuned several development strategies based on the latest policy guidance which mainly include the concentration of strengths on the development of owned hospital business while controlling and gradually reducing the scale of hospital management business. Specific progress has been made as follows:

In the first half of 2018, the Group's owned hospital business developed rapidly. Three new hospitals, namely Hangzhou Cining Hospital, Hangzhou Yining Hospital and Luqiao Cining Hospital, have been put into operation in succession. Those existing hospitals, such as Linhai Kangning Hospital, Geriatric Hospital, Quzhou Yining Hospital, Pingyang Kangning Hospital and Shenzhen Yining Hospital, which were opened after 2016, entered into a phase of rapid growth. Except for Shenzhen Yining Hospital, all other four hospitals have realized profits in the first half of 2018. After the new building of Wenzhou Kangning Hospital was put in use, the proportion of mid-to-high-end patients gradually increased, driving the growth in the Group's average inpatient spending per bed-day. The service volume of Qingtian Kangning Hospital and Yueqing Kangning Hospital has also increased steadily as compared with the same period of last year. However,0.516 6Qj0.519 0 T0.741 0YTm(H)Tj0.741 0 Td(o)Tj0.519 0nTd(o)Tj0.519 0gTd(o)Tj0.519 0

interest in Nanjing Yining Hospital in July 2018. As for the self-construction hospitals, Taizhou Kangning Hospital self-built by the Group has completed its construction and commenced trial operation in July 2018. As for investment as a minority shareholder, Huainan Kangning Hospital and Heze Yining Hospital invested by the Group have completed construction and were put into operation in April 2018 and July 2018 respectively.

While developing the healthcare business, the Group understands that medical safety and service quality are of vital importance to our reputation and business. Therefore, the Board has positioned 2018 as a "year of solid foundation", focusing on the improvement of human resources quality, the promotion of standardization in Group's business, corporate brand building and informationization construction. Looking into the future, we will leverage on the favorable environment brought by the PRC government which encourages the social capital to establish medical facilities to further implement the Group's medium- and long-term strategic layouts, strengthen medical safety supervision, talent training and informatization construction of the Group, with a view to improving its service level of medical institutions.
